Professional Summary

Technical Project Manager and engineering-delivery leader with **6+ years** of hands-on software and quality experience. At Platformz, lead delivery for three client platforms with a **30+ person cross-functional organization** spanning engineering, DevOps, design, QA, marketing, and HubSpot. Own roadmaps, dependencies, risks, release readiness, executive reporting, and full QA strategy. Known for turning ambiguous programs into measurable plans, including compressing a 12-month 3P hybrid EDI initiative into approximately **60 days**.

Core TPM Competencies

• Program & Portfolio Delivery	• Roadmaps & Prioritization	• Cross-Team Coordination
• RAID & Dependency Management	• Executive & Board Reporting	• Release Management
• Agile / Scrum / Kanban	• Product & QA Strategy	• Vendor & Client Leadership

Professional Experience

Technical Project Manager · **Sep 2024 – Present**
Platformz — platformz.us
- Own end-to-end delivery for FUR4, Rockerz, and DMV Raw Feeders with executive sponsorship; lead 30+ engineers, DevOps specialists, designers, QA professionals, marketers, and functional leads.
- Translate business goals into roadmaps, sprint plans, ownership, milestones, release criteria, and executive-ready delivery reporting.
- Run dependency, scope, resource, and risk management across frontend, backend, Magento, React, AWS, GraphQL, EDI, marketing, and operations workstreams.
- Delivered a 12-month 3P hybrid EDI marketplace program in approximately 60 days across Amazon, Walmart, Target, Chewy, eBay, and Macy's.
- Own release quality across automation, manual, API, security, load, and performance testing; report status, risks, and decisions to executive and board stakeholders.

Senior Software QA Engineer · SDET · **Sep 2025 – Aug 2026**
Kintsugi — San Francisco, USA (remote)
- Led feature-level quality planning, engineering coordination, test strategy, and release readiness for an AI-powered sales-tax platform.

Software Automation Engineer II · **Feb 2024 – May 2026**
All Generation Tech — New York, USA (remote)
- Coordinated automation delivery across regulated insurance clients including CFC, Tokio Marine Kiln, and American National (ANICO).

Software QA Engineer I · **Sep 2023 – Sep 2025**
Kinetik — New York, USA (remote)
- Led quality strategy across Trip Scheduler, Trip Assistant, RCM, and the Kinetik Health App; coordinated product, engineering, DevOps, and release stakeholders.
- Planned risk-based test coverage and release gates from manual QA through API, mobile automation, security, performance, and production launch.

Senior Software Automation & Reliability Engineer · **Jan 2025 – Jun 2025**
Mastercard — remote
- Facilitated reliability, chaos, incident-response, and disaster-recovery initiatives with platform engineers; mentored junior engineers.

Augmented Senior Software QA Engineer · **2024 – 2025**
Intelex via TCS — US client
- Led quality coordination for a four-region global Magento platform covering regional requirements and third-party integrations.

Software QA Engineer · **Feb 2024 – Mar 2025**
Grameenphone via Miaki — MyGP
- Owned planning and delivery of the complete backend automation framework for a large-scale telecom application.

Earlier Quality Engineering Roles · **Jul 2020 – Aug 2023**
REVE Systems · Dynamic Solution Innovators · CarryBags Ltd
- Progressed from execution-focused QA to test planning, stakeholder communication, mentoring, risk-based quality leadership, and cross-team release support.
- Delivered government, civic-tech, telecom, mobile, and e-commerce programs including Sothik, CBMS, OpenCRVS, and IPEMIS.

Selected Program Portfolio

- **FUR4:** Five portals on Magento + React + GraphQL; multi-marketplace EDI, operations dashboard, dealer and referral ecosystems.
- **Rockerz:** DTC, dealer, referral, and dealer-locator platforms with a four-zone interactive product configurator.
- **DMV Raw Feeders:** Zone-based delivery routing, subscription management, referral workflows, and production operations.
- **Kinetik Health:** Cross-product healthcare QA and release leadership covering scheduling, trip assistance, RCM, and mobile.
- **MyGP:** Backend automation program designed and delivered from zero for the country's largest mobile operator app.
